### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: claims 1-11, 14-41, 43-53 are allowed over the prior art of record. The prior art or record, in particular Pedersen et al (6,329,182) discloses treating a xylose containing reaction product, produced by enzymatic conversion of starch into sugars, by combination of ultrafiltration and nanofiltration, including returning the permeate containing xylose to the reaction product or stored. The present invention treats xylose containing reaction product from a different source, e.g. a hydroxylate of vegetable containing vegetable material, and further contact the "hydroxylate" directly to the nanofiltration membrane to recover permeate xylose, as in claim 1, line 3. Therefore the inventions are distinct.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
